2. Outline of My Organization

(1) Background, vision, strategy, activity

To reflecting the need in the poorest country as Cambodia, which has much more number of disable people because of neglecting, the rehabilitation center for spinal cord injured persons was built in 1993 and continued its activity since then.

Our vision is to improve the quality of life of disabled people in all related areas (medical, physical and social rehabilitation) with due respect to the cultural context and the long-term sustainability of the action undertaken.

The strategy is to provide comprehensive and holistic services of medical, physical and social rehabilitation to the spinal cord injured persons through the center based and community based rehabilitation.

Our major activities are:

- To provide medical care to the spinal cord injured patients
- To provide physical treatment
- To socially support to the extremely poor patients
- To follow up at home of patients in the target area
- To refer the PWD to receive specific services
- To participate in the related meetings
- To provide training to the students and health professionals

(2) Major programs, covered area, and target population of my organization

Our major programs are:

- To provide good quality of medical and physical rehabilitation services in the center for spinal cord injured person

- To integrate the disable persons into the community through adaptation and follow-up
- To network with other NGOs

It covers the Northwest area of Cambodia (Battambang, Pursat, Banteay Mean Chey and Siemreap province) with approximate three and a half millions of habitants lived.

(3) Target group, number of beneficiaries

The target group is spinal cord injured persons and the number of beneficiaries is 100 annually.

(4) My position and duty

I am Director of the rehabilitation center for spinal cord injured patients. I supervise the general functioning of the center. I participate in the development of the vision and strategy the center. I prepare the annual planning the activities and budgets. I control the budget expense. I supervise the home follow-up in the community.
